

San Diego County Big Day Bird Route, Oct 9th, 2021

Predicted 50% for all hotspots: 156 species

Based on eBird data from:

Historical Data: 1990 – 2021

Confirmed notable (rare) species data: 1 day back (reported Oct 7 or Oct 8th)

You must average 25 min per stop to finish the daytime route between morning and evening twilight. At this pace, a ~2am start is required to arrive at your first daylight stop at dawn.

Good luck, have fun, and drive safe!
